

# Preparing the Clinimix TPN Bag

**1**

Grasp the bag on each side of the top of the bag.

**2**

Using some pressure, slowly roll the bag forwards.

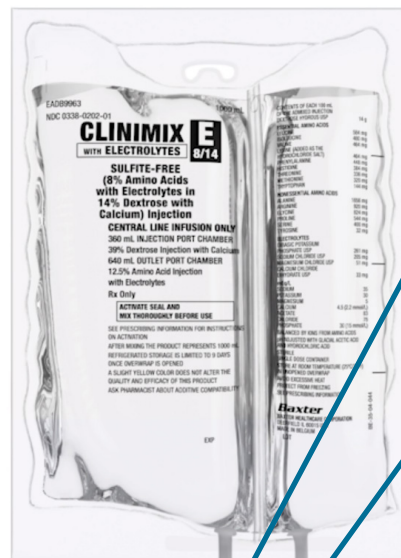

**3**

Roll the bag until the seal between the chambers opens.

**4**

Be sure the contents of both chambers are mixed together after breaking the peel seal. Do not pull or rip the seal apart.

**ADMINISTRATION PORT**

Port for connecting infusion pump.

**MEDICATION PORT**

Port for adding:

- Medications
- Trace Elements
- Multivitamins
- Electrolytes
- Lipids
